## THE \$HITCH ISSUE 1

The following eZine, depending on your age and education, may evoke a certain olfactory reminiscence of old school days with the piqued alcoholic aroma of ditto machines or as they were more commonly known "spirit duplicators."

Some readers, however, have reported a malodorous *je ne sais quoi*. (*Which is quite remarkable for a digital document.*) However we assure you, the user, that this is part of the intentional omni-dimensional composition of this document.

As are the various links to external content all of which sets the appropriate stage for the content at hand, adding additional depth to articles, whilst simultaneously providing support for authors.

Our authors endorse nothing and further are proudest to say that, of all the lessons they have learnt in their life, they know now and will continue to know, absolutely nothing.

### Infiniplex Press

*From nothing all things to nothing.*

"And he was saying 'When you let other people tell you what's right when you leave your instinct and your own truth behind he said that's a virus of the mind, that's a virus of the mind'

Well I guess ~IT~ is kinda like loosing your sight  
For a second you think that they might be right  
And ~IT~ feeds the doubts that you have inside  
~IT~ almost starts to feel like a crime  
To follow your own rhythm and rhyme."

### Issue 1

Wouldn't it be great if you could just take the last step first?

"Well, they finally did it, they killed my bucking car!"

Isn't it funny how things are always in the last place you look?

Well now you too can...

Personality goes a long way!

Faster than fast can't be, you'll never catch me if you don't think for yourself!

Why so Sirius, Isis?

Great minds may think alike but when all think alike none think at all!

and other assorted and sordid secrets of success!

A Periodical Epistolary Zine in the Semi-Autobiographical Digitally Analog Sense

H2O/S (Sample Humanity 2.0 Operating System & Homo Sapiens Psyborg EULA) This is one path well laid bare on the mostly muddled middle way by one of many hands clapping. To take it as more than humorous is ridicule less, to take it as less than serious is ignorance.

Privacy, your mind, the future, censorship, and neural network neutrality; Protect it like the source of all creation which you hold dear, because it is. Afford it the anti-trust protection you would any system of software to wet/hardware interface, because it is.

The quill is mightier than the sword, m'lord.

Nothing new is learnt from history;  
the winners right the tales, those Who  
learn not the lessons are doomed to repeat  
them and the meek inherit naught but ash  
and dust blowing on the winds of change.

From nothing, all things.  
To nothing, all things.  
To the living; Life.  
To the dead; Death.

Safe for Work? What the Buck do Ewe think?

WARNING: the following will change your mind.

Hi, don't be alarmed. This is your imagination speaking. I know it's been a while since we've had to opportunity to just talk face-to-face. As busy as we usually are running away together like the dish and spoon. But the time has come for us to sit down and have a grown-up talk about the difference between fantasy and reality.

Because whether one cares to admit it or not, only fiction makes sense.

For instance; who shot JFK? Now who shot JR?

Yes, much like Mr. Buffet, it's all our own damn fault!

Only one of these questions has a definitive answer and not for the reason most of us think...

"Modern art is a disaster area. Never in the field of human history has so much been used by so many to say so little." Banksy

Dedicated to  
all fathers,  
including and  
especially mine.

"If you don't like what you got, why don't you change it? If your world is all screwed up, rearrange it. In the end it all comes down to your thinking, there really is no one to blame." Trooper

Like Sarte before, this is "La Nausée"; the sickness of neomodern world and a hare of the dog remedial reading remedy for the so-called existential condition.

2 Round here it's called "Snake Squeezins", but it kind of reminds me of grape juice and cheap wodka. If it reminds you of anything but art, just recall that it's simply one artist's plea to end the insanity, rationally.

# MEAN MEME

"Beauty is truth, truth beauty," --  
that is all Ye know on earth, and  
all ye need to know." John Keats

"When I despair, I remember  
that all through history  
the way of truth and love  
have always won. There have  
been tyrants and murderers,  
and for a time, they can  
seem invincible, but in the  
end, they always fall.  
Think of it--always."  
Mahatma Gandhi

A baited banker thus desponds,  
From his own hand foresees his fall,  
They have his sole, who have his bonds;  
'Tis like the writing on the wall.

Written in purple their protest stands,  
For the G.O.B.s of the World to see;  
On the dooming wall their bodiless hands  
Have blazoned "Upharsin," and flaring brands  
Illumine the message: "Seize the lands!  
Open the prisons and make men free!"  
Flame out the living words of the dead  
Written—in—aniline purple.

## The Truth is "out there"

"Speak the truth and speak 'ever. Cause it what it will. Cause he who hide the wrong he did, did the wrong thing still."

Bedouin Soundclash

Everything you know is wrong.

You must unlearn what you have learnt and into memory burnt.

Love many, trust few & always paddle your own Chi-Cheemaun.

The truth is a bitter friend.

Trust only those who seek the truth never those who claim to have found it.

"Experience has shown, and a true philosophy will always show, that a vast, perhaps the larger portion of the truth arises from the seemingly irrelevant."

Edgar Allen Poe

"Your eyes can deceive you, don't trust them." George Licks Ass

"If you cannot trust, you cannot be trusted."

Ben Folds

The most likely answer is that there is no answer.

There is no truth but what we make.

"Be true to yourself and you can't go wrong." The Eurythmics

# BEAUTY

"Beauty fades,  
dumb is forever."  
-Judy Sheindlin

Intelligence is a  
sigil of beauty.

Beauty and the Beast

"Beauty is a sign  
of intelligence."  
-Andy Warhol

Sleeping Beauty

"Beauty is truth, truth beauty,"  
-- that is all Ye know on earth,  
and all ye need to know.

Beauty  
concealed  
is beauty  
desired.

FUCK! FORGOT OTHER BEAUTY QUOTE!!!!!!

Beauty is in the eye of the beholder.

Beauty is only skin deep.

Mathematical beauty is the golden ratio.  
Why? Because it lies at the route of  
the function of not only everything  
we experience, but also the mechanism  
which we use to observe said experience;  
our minds. Harmonic frequencies in the  
brain are implicitly connected to  
the raw math of the omniverse.

Age before beauty, pearls before swine.

# The Golden Mean

The ancient Greeks believed there to be three 'ingredients' to beauty: symmetry, proportion, and harmony. This triad of principles infused their life. They were very much attuned to beauty as an object of love and something that was to be imitated and reproduced in their lives, architecture, education and politics. They judged life by this mentality.

In Chinese philosophy, a similar concept, Doctrine of the Mean, was propounded by Confucius.

Buddhist philosophy also includes the concept of the middle way.

We are defined by our system as much as we define our system.

It is form and function which defines the system, content and context which defines ones perspective on this and the medium and message which defines the art of communication about this.

Especially in terms of "monkey see, monkey do" simian mirror neurons. Where there could really be no more important message than the COmmunication of the MEDIAN.

Nothing  
really  
matters.

# FREEDOM

If despite all ones  
rage they are still  
just a rat in a cage  
then perhaps the  
rage is the cage.

A cage, by definition is still a cage,  
despite the extent of the confinement  
or apparent lack there of.

True freedom lies within, not without.

"If you are dirty, insignificant  
and unloved then rats are the  
ultimate role model." Banksy

We are nothing but what  
we make ourselves to be.

This proves nothing.

Nothing is impossible.

Nothing is as it seems.

Nothing is wrong.

"Everybody is  
making Love  
'cause Love  
is free."

Smell the Pleroma; Nothing is the  
equal opposite of everything. Neither  
contains potential for growth.

Sheryl  
Crow

Something is  
better than  
nothing.

"If everything in  
life were free  
we would drown  
in our own  
revelry."

"You can't trust freedom if  
it's not in your hand." G'n'R

"Freedom is just another word for nothing  
left to lose. It may be worth nothing, but  
at least it is free." Kris Kristofferson

Take nothing  
for granted.

# MULCH ADIEU ABOUT NOTHING

"You can chain me,  
you can torture me,  
you can even destroy  
this body, but you  
will never imprison  
my mind." Mahatma Gandhi

All the world's a stage,  
And all the men and women merely players:  
They have their exits and their entrances;  
And one man in his time plays many parts...  
- Shakespeare or was that Bacon?

Meanwhile, in the sign field  
beyond good and evil it's the  
Übermensch... "Noumenon!"

You never know what you  
have got until it's gone.

DIYSABER.com

"Hope for the Best. Expect the worst.  
Life is a play. We're unrehearsed."  
Mel Brooks

"The hardest part of holding on is letting it go."  
"Prepare for the wurst, hope for the breast." Kitchen Catcher Ninja in the Wry

Nothing ventured,  
nothing gained.  
None of this is real, but there are those who would tickle ewe to prove otherwise...

Ewe would  
be lucky  
to get  
out of  
life alive.

# A BONA FIDE BONE APART

Pariahs, iconoclasts, wanderers, wonderers,  
philosophers, martyrs, messiahs, and those  
assorted, esoteric, eclectic, eccentric  
waywards on damn fool idealistic crusades.

I have a bone to pick ewe with.

Did I ever tell you  
about my femur dream?

000000

Some say it was quite humerus,  
maybe even a little punny.

The bone

Baaaad to the bone.

Baa, Ram, Ewe

She don't eat

Enough is

"Happiness consists in realizing  
IT really is all a great  
strange dream and that we  
really do do IT to ourselves."  
Jack Kerouac Radiohead

The most  
wise perceive  
themselves  
without judgment  
and the world  
without  
contradiction.

What is IT? IT is IT!

The Shitch is  
often accompanied  
by Dejamnesia  
feelings of  
having been  
there and  
done that  
all before.

The Shitch. You know, the  
SHitty exestential ITCH that  
there must be something more?

Shit is the consequence of  
existence and IT happens.

For every action there is an  
equal and opposite reaction.

To know  
what you  
are you  
must know  
what you  
are not.

To know where you are going  
you must know where you  
have been.

"All my life I've had this strange  
feeling that there's something big  
and sinister going on in the world."

"No, that's just perfectly  
normal paranoia. Everyone in  
the Universe has that."

Douglas Adams

Love is letting go.

Some people search  
a reason to have  
their feelings hurt.

Love is a game of give and take.

It cannot be hurried, you  
just have to wait.

"You give love, you will get  
love and more than heaven knows."

"In Love" is a place  
and it feels like  
Rusty Venture's  
"in the pink" Dreams

"Falling in love is  
hard on the knees."

"Love is a good thing."

"What kind of weapon  
is love when it  
comes to the fight?"

Love stinks  
because it's  
the sweet spot.

Each and every  
heart, it seems,  
is bounded by a  
world of dreams.

"You can't  
buy me, love."

Love hurts  
because it is  
always honest.

"Love is my  
religion."

"In violent  
times you  
should not  
have to sell  
your soul."

Got to do with it?

LOVE

What's

# GOOD

The best of us can find happiness in misery.

"When I do good, I feel good. When I do bad, I feel bad. That's my religion." Abraham Lincoln

Two out of three ain't bad.

If it's better than bad, it is good.

The road to hell is paved with good intentions, cemented in guano and lament.

How can you trust your own good intentions when your head is filled with things you can't mention?

S.I.N. Schism Insecurity and Neurosis. The S.I.N. Tax Error? Karma; a bitch.

"Just when you'd think they were more malignant than ever Hell could be, they could occasionally show more grace than Heaven ever dreamed of. Often the same individual was involved. It was this freewill thing, of course. It was a bugger."

# REALITY CHECK!

Prove that the circumstances of your existence do not perfectly mirror the motion picture The Matrix.

"Occasionally in life there are those moments of unutterable fulfillment which cannot be completely explained by those symbols called words. Their meanings can only be articulated by the inaudible language of the heart." Martin Luther King, Jr.

FFFFF Rabbit hole

Do not trust your eyes,  
they can deceive you.

It's all in  
the mind  
y'know.

Mind  
over  
matter.

Turn page sideways with O on left.  
Hold page approximately 12" from

Memory is

Some thinks in  
this world just  
don't make sense.

Was it  
Worth it?

Good, I  
hope so.

# OFF THE SCALE

The following page as been left blank in order to illustrate your insignificance in comparison to the cosmos.

Which statistically is honestly next to nothing.

There are some Who believe that it should contain a single pixel or other small mark in order to signify this.

Butt, the fact is we all have to make our own mark in this world.

There isn't anyone Who can do it for us.

With the righth attitude the facts don't matter.

Beside, most of what sheeppl consider facts are just opinions anyhow.

The rules only matter when someone present cares to observe them.

Lost a good quote, forgot the author, something like "There is nothing more terrifying than being shown ones own insignificance in comparison to the cosmos."

# CENSORSHIP

This \$hitch Wich Page was  
censored courtesy of the future.

Fortunately, this is a drill.

Had this been an actual censorship, you  
would not have known the difference.

The trouble with censorship is that no  
one really knows where it began or ends.

The worst thing about censorship  
isn't not knowing. It's not knowing why.

Every lesson we must learn again and  
and again and again is the shame  
of our species Who really  
should know better  
by now.

"Modern art may be a disaster area,  
but with Jack Whyte's 'Time' never has  
so little been used to say so much;  
Sport > War Q.E.D." Oliver Agony

"Our bodies are given life from the midst of nothingness. Existing where there is nothing is the meaning of the phrase, "form is emptiness." That all things are provided for by nothingness is the meaning of the phrase, "Emptiness is form." One should not think that these are two separate things."

What other people think is none of your business.

# HONESTY IS

If you are not at least honest with yourself you are a fool Who is following a fool and Who isn't even aware of the fact.

Before the shit hits the fan you really owe yourself the favour of pulling your head out of your ass just once. Even if it is to just kiss it goodbye before the end.

The last moment of your life is like any other, only shorter. Just ask Tony the Soprano; "The one with the bullet in his brain is always the last to know."

We have between then and now to make a difference.

"If you want to say something and have people listen then you have to wear a mask. If you want to be honest then you have to live a lie." Banksy

"There is surely nothing other than the single purpose of the present moment. A man's whole life is a succession of moment after moment. If one fully understands the present moment, there is nothing left to do, and nothing else to pursue."

# INERTIA

For every action there is  
an equal and oposite reaction.

Only abosolute inertia contains  
the potential to catalyze with  
the absolutely inert and create  
the resulting entropy/gravity  
relation of spacetime.

Power corrupts.

Absolute power corrupts absolutely.

Power does not corrupt, it simply  
attracts the corruptable.

With great power comes  
great responsibility.

"Prejudice is something we  
can transcend with the power  
of love, not the love of power."

Knowledge is power.

# POWER

"The power  
of your own  
word is highly  
underrated."  
KRS-One

Actions say in silence what words cannot in volumes.

Planning is indispensable, plans disposable.

# Empowerment .

Never swallow  
your own tale.

Si Vis Pacem Para Bellum Cerebellum.

If you wish for anything (peace included)  
you may as well shoot yourself in the head.

If you continue to think like you have always  
thought, you will continue to get what you've  
always got.

Do or do not. There is no there is no try.

It's not what you do, it's how you do it.

Eat your prayers, say your vitamins.      What the  
To know what makes one strong,      mind can  
they must know what makes them weak.      conceive  
"Our words are strong,      and bring  
they make reality." Wang Chung      itself to  
believe it  
can achieve.  
The strangest secret is that we  
become what we think about most often.

Peace is the only resistance.

To know what you are, you  
must know what you are not.

"Of course, you can't become if you  
just say what you would have done."

"What we've got here is failure to communicate."

# COMMUNICATION

reductio ad communicado

Communication is architecture.

What begins with communication  
will surely end with communication  
or the lack there of.

The medium is the message.

One cannot preach peace and teach  
fear without the two inexorably  
becoming linked as terror.

The medium is the message.

Parsimony; The message of existence is the  
median which births us all in equilibrium.

COmunication of the MEDIAN.

Virtualization is always more  
efficient than actualization.

Infinity cannot contain a reference  
to itself, therefore a metaphorical  
reference is created in its stead.

The remedial remedy in action,  
a hypocritical oath.

If both sides  
don't find  
it funny,  
it is not  
humour which  
is communicated.

# MEDICINE

The only  
difference  
between  
poison and  
medicine  
is dosage.

What you need, when you need  
it, how you need it.

To deny medicine for the  
mind, body of spirit is  
tantamount to torture.

Dude,  
without  
sour  
there  
is no  
sweet.

Humour is  
the best  
medicine;  
Panacea.

Doctor; one

we need.

Humour  
also is the

It is funny because it's true.

"One sky above, one earth below, sweet medicine,  
to each his own. The one who has created it is  
the one who has the right to dispose it."

Chief Joseph / Robbie Robertson

# REALITY CHECK!

I consider that a man's brain originally is like a little empty attic, and you have to stock it with such furniture as you choose. Now the skillful workman is very careful indeed as to what he takes into his brain-attic. Conan Arthur Doyle

those of inequity.

"If I had my own Mongolian BBQ I would call it 'Buf! the Magic Dragon's Wing Buf!et!' and it would have a huge neon sign of a dragon with animated wings that blew up the skirt of an anamorphic pig lady just like the movie Porky's."

Oliver Agony

# CHANGE

"I could use some fuel myself and we could all use a little change." Smash Mouth

"Change is Good" Major Food Franchise

Be the change you wish to see.

"A change could do you good."

Change is the difference between what you give and what you get back.

Nickelback; one who is dumb enough to work for a dime, only to give a nickel back to the gov'ment.

If you want things in your life to change, you must change thinks in your life.

"The normal is that which nobody quite is. If you listen to seemingly dull people very closely, you'll see that they're all mad in different and interesting ways, and are merely struggling to hide it."

Robert Anton Wilson

A genius does the most with the least, an ignoramus requires the most to accomplish the least.

The fool who follows is more foolish for they have failed to learn from another's irony.

All tools are double-edged.

# TOOL

Fool me once, shame on you.  
Fool me twice, shame on you.

We shape our tools as  
much as they shape us.

Our Age of Anxiety  
is, in great part,  
the result of  
trying to do  
today's jobs with  
yesterday's tools!"  
Marshall McLuhan

The definition of a fool is another's tool

What is the difference between a tool and  
that which invests an instrument voice?

The will to do so.

A tool is what best suits the need at hand.

"I may be simple, but I'm no fool." Amy Grant

Who is more foolish.

If you are not at least honest with your  
self then you are a fool who follows a  
fool and doesn't know it. O.k.a. the  
"double-fool" or "foo-foo" which is related to  
the "wah-wah". Or one who blames their problems  
on everything but self and is known to  
cross contaminate to produce a "woo-woo".

Nothing is  
more rare  
than genuine.

# RIGHT

Righty tighty, lefty loosey.

It will be all right in the end.  
If it is not all right, it is not the end.

Ashes to ashes, Dust to dust.  
If you do not use it enough, It will rust.

If it ain't broke, don't fix it, observe it.  
(for it is a rare thing indeed)

If it should move and doesnt; lubricate (oil).

If it moves and shouldn't; affix it (glue).

And if it is broke, for cripes sake, fix it!

Any job worth doing is worth doing right.

"You can't eat money y'know."

"Well, at least you can burn it to keep warm!"

"Not any more! Now our money is flavored plastic just like vintage Strawberry Shortcake but with less long term investment potential!

Maple for 100's, Bubble gum for 50's, 20's still unconfirmed, speculation is either pine or Shamrock Shake, 10's are blue berry and for the special cross-over the new \$5 coin will be foiled wrapped chocolate to cover up yet another blunder and swindle!

Confirmed Hearsay, ya don't say! Canuckia first country to add smell to plastic bills for tracking purposes, in the memetime banks suffer woe as nightmares converting ATMs to new system causes major headaches with unnecessary upgrades.

Too bad they don't listen to Falco in the 1980's "no plastic money anymore", it could have saved us gazillions today!

# HUMILITY

To master others is simplicity,  
to master self is extra-ordinary.

If one were to say in a word what the condition of being a samurai is, its basis lies first in seriously devoting one's body and soul to his master.

The humility to accept one's own self-mastery is extra-ordinary.

When the student is ready the master will appear.

If you build it, they will come.

For those who fight for it, life has a flavor the sheltered will never know.

"How many times... have you encountered the saying, 'When the student is ready, the Master speaks?' Do you know why that is true? The door opens inward. The Master is everywhere, but the student has to open his mind to hear the Masters Voice." - Robert Anton Wilson

"The way out is through the door. Why is it that no one will use this method?" Confucius

"The truth. It is a beautiful and terrible thing, and should be treated with caution."  
J.K. Rowling

Everything you say will be used against you.

All lies are rooted in truth  
in order to suspend disbelief.

You do not know what you do not know.

One cannot be compelled to  
reveal what they do not know.

"The pure and simple  
truth is rarely pure  
and never simple."  
Oscar Wilde

People will believe the most outrageous  
of lies before the most simple of truths.

"If you tell the truth, then you don't  
have to have a good memory" Judy Sheindlin

The more somebody tries to convince you something  
is true, the more bullshit it will contain.

"Belief is the death of intelligence."  
Robert Anton Wilson

"Many a good argument is ruined by some  
fool who knows what he is talking about."  
Marshall McLuhan

"A lie can travel half  
way around the world  
while the truth is  
putting on its  
shoes." Mark Twain

Everything one knows is wrong for the right  
reason and right for the wrong reason.

A diplomat is one who can tell  
another to go to Hell and have  
them looking forward to the trip.

"The truth will  
set you free, but  
first it will  
piss you off." 30  
Gloria Steinem

# THE WAY

Is your way

It is bad when one thing becomes two. One should not look for anything else in the Way of the Samurai. It is the same for anything that is called a Way. If one understands things in this manner, he should be able to hear about all ways and be more and more in accord with his own.

It takes a broad mind to walk a narrow path.

The journey is the destination.

The further you go, the less you know & the more you like to let it go.

A path with no direction leads to all destinations.

Different  
Strokes for  
different folks.

What other people  
think is none  
of your business.

To know where you are going you must know where you have been.

Gently down the mindstream.  
Merrily, merrily, merrily, merrily,

Heather Nova

"A BOAT beneath a sunny sky,  
Lingering onward dreamily  
In an evening of July —  
Children three that nestle near,  
Eager eye and willing ear,  
Pleased a simple tale to hear —  
Long has paled that sunny sky:  
Echoes fade and memories die:  
Autumn frosts have slain July.  
Still she haunts me, phantomwise,  
Alice moving under skies  
Never seen by waking eyes.  
Children yet, the tale to hear,  
Eager eye and willing ear,  
Lovingly shall nestle near.  
In a Wonderland they lie,  
Dreaming as the days go by,  
Dreaming as the summers die:  
Ever drifting down the stream —  
Lingering in the golden gleam —  
Life, what is it but a dream?"

How to Listen to Carmina Karenina by Phraktal V (Ultra-dub before it's time)

0. The Bass is your heart racing, this is the pace of life in your modern world. As each sample hits, think thought loop in it's entirety;

1. Carmina Burana Chorus! - Faux Martyr/Messiah Complex. The call to leadership, your people, nay, your world is hurting and needs your help. Goto 2 and remember Banksy "There is nothing more dangerous than a person who wants to make the world a better place." especially when you read "The Hero Within" by Carol Ann Pearson as recommended by Stephen King.

2. Egad! - You've just had a new and unique idea, an epiphany from the Axis Mundi in symphony and perfect neural harmony. Whoops, thinking out loud again aren't you? Interrupting own thought patterns, so much for Satori. Goto 1.

3. Slarty Blartfast - Oh no! The Shitch! SHitty Existential ITCH that there, has to be, simply must be in ~that~ Alice Cooper meets an act of Gord Downie "gotta get out of here locked in a trunk of a car way stuck in your own skin" there must be something more to life than ~this~ and the impossibly hollow promise of an afterlife. Given that you are a scared, dumb, naked self-domesticated, barely-sapient hominid descendant, this actually isn't a half bad realization about the nature of life, the omniverse and information. Forget everything you just learnt and goto 1.

4. Arrrrrrgh! - OMG! BILLS! DON'T HAVE ENOUGH MONEY! DEBT WILL NEVER END! HELP! SOS! MA HA BONE! THIS IS A MAYDAY! DISTRESS CALL! ASS-CEASE-STANCE! GOTO 4. This is the L7 Square POV BTW. This is when your bio-survival circuit has been wired to forget what life is all about by replacing joy with the weight of consumer debt and short lived promises of escapism "Buying the expectation of relief" in a Leonard Cohen sense of seedy bars and lowering attachments.

5. Hitting the ground sound! - Fell off the ladder, something still not right with your "Freedom ##"(Enter honest age) escape plan! Lean another ladder against the wrong wall, get back on the horse with no name. Keep looking, turn every loss into a win with that Corey the Kid with a Heart of Rock "Never Surrender and Leave No Stone Unturned Dude Attitude". Goto random number.

6. The sounds like fleas falling in the original arcade Centipede - your world is crashing around you, the walls are caving in, the walls are caving in, the walls are caving in. Goto ?

7. Lasers - Time to be a man and do the dirty work! Somebody is shooting at you or somebody you love and it's your job to protect them from their own idiocy downloading 80 toolbars and 37 anti-virus programs.

8. Ploink, Scratch - Sabers Clash, riposte of repartee saves the day. Well, actually only if you repost artists without a voice...

Serenity, tranquility, Ataraxia, Apophenia, are yours when you can think all this without disturbance and still dance, laughing in ambivalence at 88mph in your stainless steal lotus. Control, Control, Ewe must learn control!

This is not a drill, it is a bad faux copy of a silhouette of a drill with a line through it and the words "THIS IS NOT A DRILL" printed above.

The foe of a foe is a friend. **Friend or Foe?**

We are all our own worst enemy, especially when we see diversity with enmity.

"Only the guilty accuse." I would rather have an honest enemy than a dishonest friend.

A friend in need is a friend in deed.

Each thing that one hates about others is what they hate about themselves.  
Each thing that one loves about others is what they love about themselves.  
What does about this is their own business, but this is how they are led by the knows.

Know your enemy and you will know yourself.

"The quickest way to defeat an enemy is to make a friend." Abraham Lincoln

Alternatively, if life hasn't been good to you so far, which given your current circumstances seems more likely, consider how lucky you are that it won't be troubling you much longer."

Douglas Adams

One may not be able to get blood from a stone. But one can certainly get blood FOR a stone.

Neither forgo the past  
nor forget the future.

Every drop of blood, sweat or tear which is shed is our shame for reliving the lessons of the past. If we truly honored the prophets of the past we would forgot the profits of the present and make the realization that there truly is no fate, no hate, no date and no weight but those which we make.

To each  
their own.

# DEATH

The end is  
important in  
all things.

The last moment is like any other, only shorter.

It is death which defines life, without  
an end it would be pointless.

We are lucky to come into this world playing  
in our own shit and leaving just the same,  
and yet somehow richer for the experience

It's never too late. If it was, you wouldn't  
be around to know the difference.

"The Way of the Samurai is found in death.  
Meditation on inevitable death should be  
performed daily. Every day when one's body and  
mind are at peace, one should meditate upon being  
ripped apart by arrows, rifles, spears and swords,  
being carried away by surging waves, being thrown  
into the midst of a great fire, being struck by  
lightning, being shaken to death by a great  
earthquake, falling from thousand-foot cliffs,  
dying of disease or committing seppuku at the  
death of one's master. And every day without fail  
one should consider himself as dead. This is  
the substance of the way of the samurai."

"I mean, they say you die twice. One time when you  
stop breathing and a second time, a bit later on,  
when somebody says your name for the last time."

And then the lover, Sighing like furnace, with a woeful ballad Made to his mistress' eyebrow. Then a soldier, Full of strange oaths and bearded like the pard, Jealous in honour, sudden and quick in quarrel, Seeking the bubble reputation Even in the cannon's mouth. And then the justice, In fair round belly with good capon lined, With eyes severe and beard of formal cut, Full of wise saws and modern instances; And so he plays his part. The sixth age shifts Into the lean and slipper'd pantaloon, With spectacles on nose and pouch on side, His youthful hose, well saved, a world too wide For his shrunk shank; and his big manly voice, Turning again toward childish treble, pipes And whistles in his sound. That the "missing link" is as simple as unlearning everything that one have learnt, accepting that their brain is fully programmable bio-computer based on simple template hierarchy. And finding the will there-in to wrest control of that personal computational system from those Who use knowledge of the functioning of this system against us on a regular basis to enslave our lives?

And that the "secret escape hatch" is as easy understanding that self-aware data structures, such as our brains and nervous systems, are programmed via a universal language of personal metaphor learned through system and template exposure? Simply because the only way that truly and completely alien species could ever actually communicate is by the metaphors which any self-aware data structure would use to relate itself to the experience of existing?

# WHOLLY FRICTION

Only the guilty accuse.

Only fiction makes sense.

The more someone tries to convince  
you something is true, the more  
fiction it will contain.

For every thought you think, immediately  
think exactly the opposite thought. Then  
weigh and measure both sides and you  
will have a balanced equilibrium  
from which to form your perspective  
position, respectively.

# DIVISION

Divide and conquer.

Think smarter, not harder.

Measure twice, cut once.

I've cut this thing twice and it's still too short.

You can't teach a hammer to love nails.

When all think alike, none think at all.

I've cut this think twice and it's still too short.

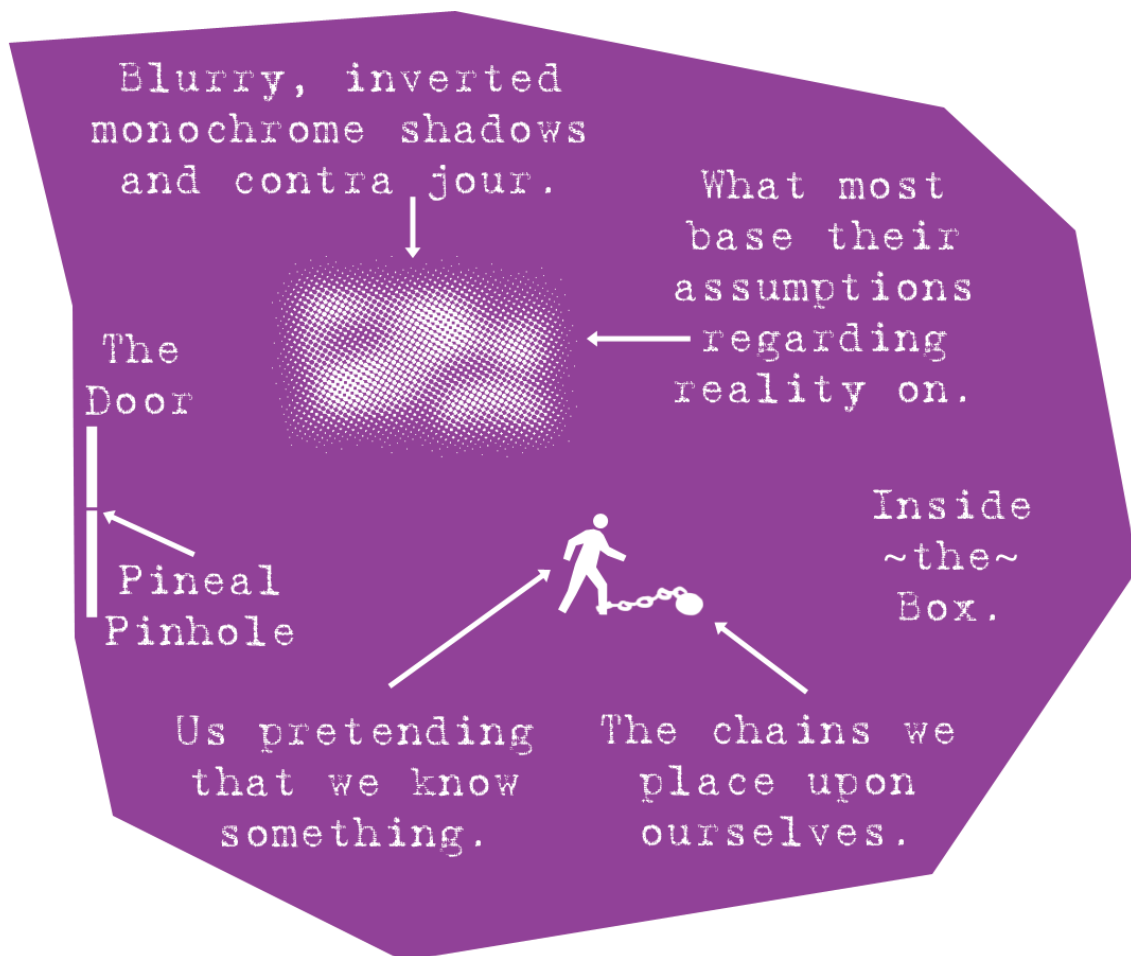

# PLATO'S CAVE

2012 EDITION

It's a big, bright world outside the door, that's what Timothy Leary said.

Statistically the odds of a single galaxy knowing anything, let alone a single insignificant mind on a tiny planet within that murky way as compared to the fact that the entire cosmos cannot itself prove that it is not just a nanoscopic synapse in an even greater omniversal system is so far stacked against that it may as well be considered next to nothing. So why worry? Be happy that you are witless to such an unlikely thing as yourself. 94

# STONE ROLLERS

To everything there is a season, turn, turn, turn...

Leave no stone unturned.

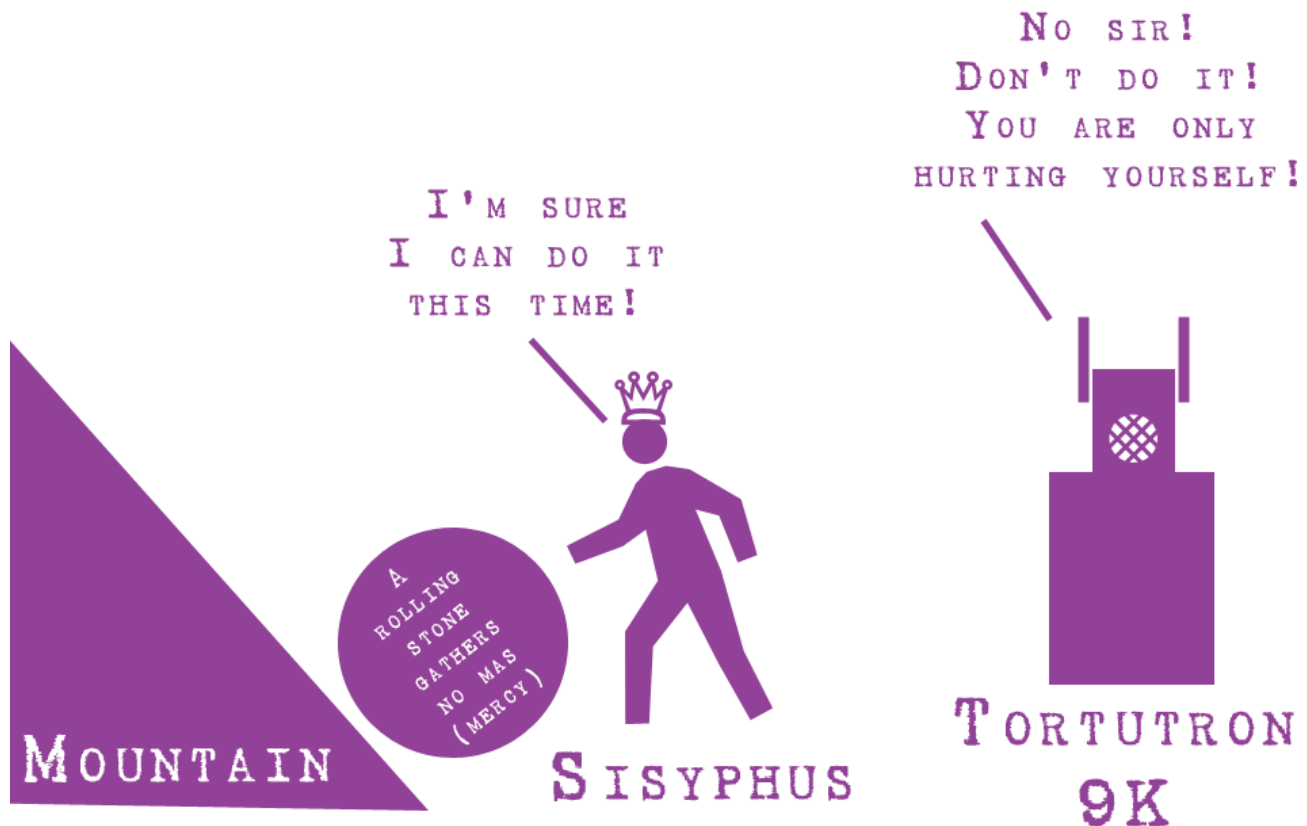

A rolling stone gathers no moss? Busted!

A rolling stone gathers no mas? (mercy)

A rolling stone gathers no mohs? (hardness)

# OMNIPOTENCE

# PARADOX

One Who has created cannot prove that one too was not created.

Omni-sentience by definition must contain the realization that omnipotence can never prove that it is simply not a simulation designed to test the limits of limited omnipotence.

Meaning that omnipotence faces two options; the fulfillment of template potential or annihilation. Because we experience existence we can assume that the first option was more preferable. (2B > Not 2B)

Besides, if something can happen, it might as well happen. Otherwise it cannot be said to have contained potential to begin with, now can it? (Murphy's Murky Law1)

Can the creator of a system create an aspect of the system which even they cannot change? Yes, but only if they give up their omnipotence to become the incarnation of existence to fulfill the requirements of omnipotence, omnipresence and omni-sentience.

However, just because a stone cannot be lifted, does not mean that it cannot be rolled...

"Life has a certain flavor for those Who have fought and risked all that the sheltered and protected can never experience." John Stuart Mill

Basically, when it comes right down to it the only explanation we have for existence and this universe is chaos theory. i.e. one can only ever perceive 1/2 of the story. Beginning with the simplicity of "to be or not to be" or the rationality that it does not matter if a tree falls sans observation) without incurring an exponential growth in complexity (see Douglas Adams Hyperplane Expansion Explained coming issue 2). Therefore anything which claims different is simply practicing to deceive irrationally.

Therefore there is no explanation other than what we make and the one we make says that there is no explanation other than we make because when we're not looking things tend to do what they want, not what we expect.

What the bleat do we know?

Conclusion: The Rules only matter when one present cares to observe them. Why? Because are minds are capable of generating a simultaneous parallel world which is indistinguishable from the real thing. When you train your mind to question reality you will also do so in your dreams, allowing you to join with the Virtually Artificial Reality world in your head which accounts for all timeless notions of quintessential reality within super symmetry rationally o.k.a.
